Dedicated to A World Without Colorectal Cancer™

CORPORATE PARTNER PROGRAM
WHAT IS THE COLON CANCER CHALLENGE FOUNDATION?

In 2004 Dr. Thomas K. Weber founded the nation’s first public colon cancer awareness event – the Colon Cancer Challenge. As a surgical oncologist working daily with colorectal cancer patients, he saw the need for increasing public awareness of the nation’s second deadliest form of cancer and the importance of expanding research focused on the causes and cures of colorectal cancer.

Since its first year the Colon Cancer Challenge has grown to attract thousands of participants and supporters from around the nation. The Colon Cancer Challenge offers survivors, family, and friends of those affected by colorectal cancer a unique opportunity to raise public awareness and contribute to the fight against this preventable, yet often fatal disease.

In 2008 the Colon Cancer Challenge Foundation was established with a formal mission of reducing colorectal cancer and related deaths through supporting research, increasing public awareness and education, and collaborating with strategic partners in the fight against colorectal cancer.

While we have made great progress in reducing incidence and death rates of those 50 or older over the last decade, the simple fact is colorectal cancer is still the third most commonly diagnosed cancer and the second leading cause of cancer death in women and men. And incidence rates and death of those under 50 have increased at an alarming rate each year.

Thanks to our corporate sponsors, we are able to continue to work towards our vision of A World Without Colorectal Cancer ™. Each sponsor is a valuable partner, whose generosity and support is vital to the fight. There is no way to adequately thank them for their contribution to our work.

Over the years, we have developed close, long-standing relationships with our corporate partners — many of whom have been supporters since the organization’s inception. They see the value of their commitment — within their organizations, where each year more employees are getting involved and working to help eradicate colorectal cancer.

We invite you to join our community of supporters! Make a difference! Reap the benefits!

For more information about these sponsorship opportunities, contact our Director of Communications and Operations Cindy Borassi at borassi@coloncancerchallenge.org.
Our Promise

• To raise awareness of colorectal cancer (CRC), the importance of early detection and the most effective screening methods available.

• To increase awareness of CRC risk factors and factors that may help prevent CRC, including family/genetic history, exercise and nutrition.

• To reduce the disparity that exists in CRC incidence and mortality rates by providing funds to improve screening rates in underserved and uninsured communities.

• To award translational research grants to young investigators studying genetic and epigenetic changes that will ultimately lead to new breakthroughs in the prevention, therapy and elimination of CRC in our lifetime.

• To leverage the impact of our donors’ support by developing broad public/private partnerships with local, regional, and national organizations invested in a mutual goal of increasing national screening rates to 80% by 2018.

Our Impact

• Free multi-lingual educational materials provided for events in communities around the country

• A national tour of our educational inflatable colon, the Rollin’ Colon

• Prevention programs in and around New York City including colonoscopy screening efforts for the uninsured and underserved

• Funding to support colorectal research at leading institutions

• Awards to young CRC investigators presenting at the world’s premier colorectal cancer societies

“EmblemHealth is committed to supporting CCCF in its efforts to eradicate colorectal cancer. The vast majority of these cases can be eliminated through screenings, and there is generally an excellent prognosis for the disease if it is caught early. We will continue to support CCCF’s work in addition to our own efforts to educate EmblemHealth members and the public about the importance of colorectal cancer screenings.”
— David Mahder
LONG-TERM TACTICS
Annual Partnerships

**CHAMPION $50,000**

**ROIS:**
Website ads in prime locations
- Running “ticker” on home page (like CNN scrolling headlines) highlighting company (and perhaps news about their recent involvement; could include race participation, speech at gala, etc.)
