

# VIRTUAL SUMMIT

12:00 PM – 2:30 PM EST

APRIL 23, 2020

**Performing a Knowledge GAP  
Analysis and Building a  
Strategic “Action Plan” to Reduce  
EAO-CRC Incidence and Mortality**

**[COLONCANCERFOUNDATION.ORG](http://COLONCANCERFOUNDATION.ORG)**

## **CO-CHAIRS**

### **Jordan Karlitz, MD**

SUMMIT CO-CHAIR

Assistant Clinical Professor of Medicine and Director, GI Hereditary Cancer and Genetics Program at Tulane

### **Susan K. Peterson, PhD, MPH**

SUMMIT CO-CHAIR / ABSTRACT CHAIR

Department of Behavioral Science, Division of Cancer Prevention and Population Sciences, University of Texas MD Anderson Cancer Center

### **Zsofia Stadler, MD**

SUMMIT CO-CHAIR

Associate Professor, Clinical Director, Clinical Genetics Service, Memorial Sloan Kettering Cancer Center

### **Yi-Qian Nancy You, MD, MHSc, FACS**

SUMMIT CO-CHAIR

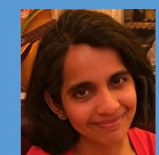

Associate Professor, Department of Surgical Oncology, Associate Medical Director of the Clinical Cancer Genetics Program, Division of Surgery, University of Texas MD Anderson Cancer Center

# PLANNING COMMITTEE

## THANK YOU TO OUR EAO-CRC SUMMIT PLANNING COMMITTEE

	<p>Jennifer Butler, CCF Board of Directors</p>		<p>James T. D'Olimpio, MD, ACP, FAAHPM, Director of Supportive/Palliative Oncology, Northwell Health Cancer Institute, Assistant Professor, Donald and Barbara Zucker School of Medicine at Hofstra/Northwell</p>
<p>Andrew Albert, MD MPH Medical Director - Digestive Health Program Advocate Illinois Masonic Medical Center</p>		<p>Andrea Cerek, MD, Assistant Attending Physician, Memorial Sloan Kettering Cancer Center</p>	

## THANK YOU TO OUR EAO-CRC SUMMIT PLANNING COMMITTEE

	<p>Robin Dubin, MBA Co- founder/Executive Director at AliveAndKick</p>		<p>Heather Hampel, MS, LGC, Professor-Clinical, Human Genetics, Ohio State University Comprehensive Cancer Center</p>
<p>Surabhi Dangi- Garimella, PhD, Principal, SDG AdvoHealth, LLC</p>		<p>Cathy Eng, Vanderbilt- Ingram Cancer Center, David H. Johnson Chair in Surgical and Medical Oncology</p>	

## THANK YOU TO OUR EAO-CRC SUMMIT PLANNING COMMITTEE

	<p>Matthew F. Kalady, MD, FACS, FACRS; Professor of Surgery, and Vice- Chairman, Department of Colorectal Surgery, Cleveland Clinic, Cleveland, OH</p>		<p>Kimmie Ng, MD, Associate Professor of Medicine at Harvard Medical School, Founding Director of the Young- Onset Colorectal Cancer Center and Director of Clinical Dana-Farber Cancer Institute</p>
<p>Whitney Jones, MD, Founder, Colon Cancer Prevention Project</p>		<p>Krista Nelson, LCSW OSW- C BCD FAOSW, Program Manager, Quality &amp; Research, Cancer Support Services &amp; Compassion, Providence Cancer Institute &amp; Providence St Joseph Health</p>	

## THANK YOU TO OUR EAO-CRC SUMMIT PLANNING COMMITTEE

	<p>Erin Peterson Communications Director, Colon Cancer Coalition</p>		<p>Ronit Yarden PHD, MHSA Senior Director of Medical Affairs (Kim Newcomer), Colorectal Cancer Alliance</p>
<p>Dr. José Perea MD, PhD. Surgery Department. Fundación Jiménez Díaz University Hospital and Research Institute, Madrid, SPAIN.</p>		<p>Kerry Wallace, MBA Director, Academic Affairs Northwell Health Cancer Institute</p>	

# FACULTY

## **APRIL D. BARRY, LSW C-CATODSW PN**

April Barry, L.S.W., M.S.W. is the Performance Improvement Manager for the Pennsylvania Department of Health, Bureau of Health Promotion and Risk Reduction, Division of Cancer Prevention and Control. In this position, she is responsible providing leadership and strategic direction to assess, plan, and implement evaluation for cancer control in Pennsylvania, oversees practice transformation/evidence based interventions with health systems, colorectal cancer and Genetics/Genomics initiatives. April has been with the Department of Health for over 16 years, and she is the co-chair of the National Colorectal Cancer Roundtable Evaluation and Measurement Task Group.

She holds a Master in Social Work from Temple University, has been a Licensed Social Worker in PA since 1999, holds an undergraduate degree from Elizabethtown College, and holds certifications in Patient Navigator and Performance Improvement Practice Facilitation and has over 26 years' experience in public health and healthcare.

## **CINDY R. BORASSI**

Cindy Borassi is the Interim President of the Colon Cancer Foundation, a not for profit Dedicated To A World Without Colorectal Cancer™. Ms. Borassi has spent over 25 years developing and leading new programs and business initiatives in the not for profit space, both in the US and abroad. Prior to joining the Foundation Cindy served as Development Director for International Executive Service Corps (IESC). As Development Director, Cindy was responsible for IESC's Corporate, Private and Governmental development efforts. Her primary focus was on building Private-Public Partnerships to leverage existing and new programs around the globe.

As Interim President of the Colon Cancer Foundation (CCF) Cindy leads the Foundation's national efforts focused on building awareness of colorectal cancer and the importance of early screening and detection of the nation's second leading cancer killer of women and men. She has been actively involved in the organization and growth of the Foundation's annual Early Age Onset Colorectal Cancer Summit (EAOCRC) since its inception in 2015.

Cindy serves on the Steering Committee of The (NYC) Citywide Colorectal Cancer Control Coalition (C5), the Westchester Cancer Coalition, the New York State Cancer Consortium, and the National Colorectal Cancer Roundtable (NCCRT) Family Health History Early Age Onset Colorectal Cancer (EAO-CRC) Task Group and is a founding member of the Hudson Valley Cancer Consortium. In her spare time she enjoys spending time with her children Isabella and Christopher, two dogs, one cat and Fred the fish. Pre COVID-19 she enjoyed exploring the region's botanical gardens, hiking and working in her own garden.

## **RENAY CALDWELL**

Renay Caldwell is the Director of Navigation and Screening Services and Database Manager with the Colorectal Cancer Prevention Network (CCPN) at the University of South Carolina. The CCPN screening program provides education and screening opportunities for the medically underserved population of South Carolina. The program utilizes a comprehensive Patient Navigation process that provides one-on-one colorectal cancer education including understanding how risk, family history and lifestyle play a role in cancer. The virtual database contains information about family and personal medical history and screening data for the 4000 patients screened in the program for analysis. Ms. Caldwell's experience at Emory University in managing a long-term NIH polyp prevention trial in conjunction with her paramedic and clinical experience laid the groundwork for her unique perspective to the circle of care.

Her passion for cancer prevention is personal. A significant number of her paternal family members have been diagnosed with breast and colorectal cancer, which led her to be screened at an early age. Diagnosed with advanced adenoma at 37, CRC education became a passion, which translated into her work. Ms. Caldwell is a long-standing member of the Cancer Control Advisory Committee with the Department of Health and Economic Control as well as a board member with the South Carolina Cancer Alliance. Her most recent personal accomplishment was hiking and ice climbing Sólheimajökull in Iceland.

### **ANDREA CERCEK, MD**

Dr. Andrea Cercek is a board-certified medical oncologist who specializes in the treatment of patients with gastrointestinal cancers, particularly colorectal and appendix cancer, and those with peritoneal mesothelioma. She specializes in both systemic chemotherapy and regional chemotherapy given directly into the liver or the peritoneal cavity. Her research focus is on the development of new therapies for patients, including molecular-based therapies to improve the outcomes for patients with metastatic disease.

### **RICHARD FAHRER, EAO-CRC**

Richard has over 17 years' experience in healthcare marketing. He holds the title of Oncology Marketing Director, Patient Solutions; and leads the marketing efforts for Pfizer's US Oncology portfolio of patient services, including their signature program, Pfizer Oncology Together.

Prior to joining Pfizer in 2012, he held customer strategy and analytics roles at Saatchi & Saatchi Wellness and Patients & Purpose. Richard has successfully launched a myriad of engagement programs for Patients, Caregivers, Nurses and Physicians within the US and Globally.

Originally from Freeport, Long Island, he now resides in West Orange, New Jersey, with his wife, Allegra, and two sons, Shepard (6) and Hartley (3).

### **DAVID GREENWALD, MD**

Dr. David Greenwald is currently the Director of Clinical Gastroenterology and Endoscopy at Mount Sinai Hospital in New York City and Professor of Medicine at the Icahn School of Medicine at Mount Sinai. Previously, he was Fellowship Program Director in Gastroenterology at Montefiore Medical Center/Albert Einstein College of Medicine for nearly two decades and was an Associate Division Director of the Division of Gastroenterology at Montefiore Medical Center in the Bronx, New York. He is a past president of the New York Society for Gastrointestinal Endoscopy, and currently serves as that organization's Education Director.

He is currently President-Elect and a member of the Board of Trustees for the American College of Gastroenterology, and previously was the Chairman of the Board of Governors. He was recognized by ASGE with a Master Endoscopist Award in 2006. He is a Board Member of GIQuIC, the GI Quality Improvement Consortium and has been a member of the Steering Committee of the National Colorectal Cancer Roundtable, and is now the Co-Chair of that organization's Public Relations and Social Media Committee. In New York, he is the co-chairman of the Citywide Colorectal Cancer Control Coalition (C5, having previously been co-Chairman of the Quality Subcommittee. His interests in endoscopy include new technology, reprocessing and infection control in endoscopy, training, quality in endoscopy, sedation, patient preparation, GERD, colon cancer screening and prevention, and capsule endoscopy.

### **WHITNEY JONES, MD**

Dr. Whitney Jones is a practicing Gastroenterologist, former therapeutic endoscopist and Clinical Professor at the University of Louisville from 1994 until 2017. In 2003 he founded the Colon Cancer Prevention Project, a state based, nation leading information and advocacy organization. Through the leadership of Colon Cancer Prevention Project and its many partners, Kentucky has more than doubled its screening rates, cut colon cancer mortality by third, and passed into law the lowest barriers for CRC screening of any state.

Since 2016, Dr. Jones has implemented systematic hereditary cancer risk assessment and point of service genetic panels testing in both the office and endoscopy platforms to both prevent and better manage the cancer risks of affected and unaffected patients.

### **JORDAN KARLITZ, MD**

Dr. Jordan Karlitz graduated from the University of California at Berkeley with a degree in molecular biology and genetics. He subsequently attended the McGill University Faculty of Medicine in Montreal where he received his medical degree. He received his internal medicine training at the Columbia University College of Physicians and Surgeons/New York-Presbyterian Hospital and completed his fellowship in gastroenterology and hepatology at the Albert Einstein College of Medicine/Montefiore Medical Center.

Dr. Karlitz is the founder and director of the GI Hereditary Cancer and Genetics Program at the Tulane University School of Medicine. He is also the former Public Relations Chair for the American College of Gastroenterology (ACG) and the current Digital Communications and Publications Chair for the ACG. Dr. Karlitz has been very active in the field of early-onset colorectal cancer research with a focus on hereditary cancer syndromes, including Lynch syndrome, and utilizing large databases to assess patterns of healthcare delivery in early-onset colorectal cancer and to better understand the epidemiology of early-onset colorectal cancer. Dr. Karlitz is currently serving on the steering committee for the National Colorectal Cancer Roundtable (NCCRT) and is the co-chair of the NCCRT Advanced Adenoma Working Group.

### **J. LEONARD LICHTENFELD, MD, MACP**

Dr. Lichtenfeld serves as Deputy Chief Medical Officer for the American Cancer Society in the Office of the Chief Medical and Scientific Officer (OCMSO) located at the Society's Global Headquarters in Atlanta. He previously served as a medical editor then directed the Society's Cancer Control Science department. He served as interim Chief Medical and Scientific Officer for the Society from November 2018 through October 2019.

Dr. Lichtenfeld is a nationally recognized spokesperson for the Society on many issues related to cancer. He is well known for his blog ([www.cancer.org/drlen](http://www.cancer.org/drlen)) which first appeared in 2005 and addresses various topics related to cancer research and treatment. More recently he has been co-leader of the Society's efforts to address the coronavirus pandemic, helping the organization meet the challenges of a rapidly changing cancer care and research environment.

A board-certified medical oncologist and internist who was a practicing physician for over 19 years, Dr. Lichtenfeld remains active in several state and national medical organizations and has a long-standing interest in legislative and regulatory issues related to health care including physician payment, medical care delivery systems, and health information technology among others.

Dr. Lichtenfeld is graduate of the University of Pennsylvania and Hahnemann Medical College (now Drexel University College of Medicine) and did his post-graduate training at Temple University, Johns Hopkins, and the National Cancer Institute. He is a member of Alpha Omega has been designated a Master of the American College of Physicians.

### **KRISTA NELSON, LCSW OSW-C BCD FAOSW**

Krista, LCSW OSW-C BCD FAOSW is trained as an oncology social worker and works in clinical & research roles within the Providence Cancer Institute and is a Program Manager in the Department of Compassion. This blend has allowed her to bring her clinical expertise to work with those impacted by cancer, and to creating supportive infusions of compassion to caregivers within Providence Health & Services.

Krista provides individual and group support for those affected with cancer and additionally has an expertise in facilitating online support groups. She also coordinates a program that focuses on the care of children who have a parent with cancer.

Krista is a past President of the board of directors of the Association of Oncology Social Work and past Director of the American Psychosocial Oncology Society, National Accreditation Program for Breast Centers, & American Clinical Social Work Association. Krista was named as a finalist in the Schwartz Center Compassionate Caregiver of the Year award was awarded the American Cancer Society/Association of Oncology Social Work Leadership award in 2019. Krista is a past recipient of an Innovation Award from the Association of Community Cancer Centers and is currently on their executive BOD as President-Elect.

Krista also has been a volunteer facilitator at retreats for women with breast cancer and annually at camps and programs that support grieving children. She also has volunteered annually on medical relief teams to Haiti since 2009. In her free time, she enjoys hiking, biking, photography and cheering on her local soccer team, the Timbers!

### **KIMMIE NG, MD, MPH**

Dr. Kimmie Ng has the expertise, training, leadership, and resources necessary to serve as Faculty in this program. She is a board-certified medical oncologist with MD and MPH degrees who specializes in the treatment and investigation of gastrointestinal malignancies. Dr. Ng's research program focuses on the identification of dietary, molecular, and genetic predictors of improved survival in colorectal cancer (CRC) patients. She has published extensively on the relationship between vitamin D status and survival of patients with CRC, and is now translating her findings into randomized clinical trials for patients. She has received multiple grants to support her work, including K07 and R01 awards evaluating vitamin D and inflammation in CRC, and served as Co-Project Leader of Project 2 in the Dana-Farber/Harvard Cancer Center (DF/HCC) SPORE in Gastrointestinal Cancer.

### **JOSE PEREA GARCIA, MD, PHD**

Dr. José Perea is a Consultant Colorectal Surgeon and Associate Professor in the Surgery Department at Fundación Jiménez Díaz University Hospital, Madrid, Spain. Dr. Perea's clinical and research interests focus on surgery, gastroenterology and oncology, and in particular, understanding the basis of colorectal cancers with differential phenotypes. He coordinates a multicenter multidisciplinary group within Spain, as well as international collaborations, focused on early-onset colorectal cancer and multiple primary colorectal cancers.

Dr. Perea received his medical and surgery degree from the Complutense University of Madrid, his specialist degree in general and gastroenterological surgery from the General University Hospital Gregorio Marañón, Madrid, and his PhD (cum laude) from the University of Salamanca. He completed a specialization in clinical research Methodology at the National School of Health, Carlos III Institute, Madrid, and a master of molecular oncology degree from the Spanish National Oncological Research Center (CNIO). Dr. Perea is a member of the scientific committee for the Spanish Society of Coloproctology.

### **ERIN PETERSON**

Ms. Erin Peterson is the Communications Director for the Colon Cancer Coalition where she works to reach the unscreened and underserved with the lifesaving messages of on time colorectal cancer screening. Prior to joining the Colon Cancer Coalition in 2011, Ms. Peterson spent ten years working for a marketing and public relations agency with national brands focusing on building partnerships and reaching consumers through unique marketing approaches.

### **SUSAN K. PETERSON, PHD, MPH**

Dr. Susan Peterson is Professor of Behavioral Science at MD Anderson Cancer Center. Her research focuses on psychosocial and behavioral outcomes of genetic testing for hereditary cancer syndromes in cancer survivors and their families, as well as the integration of genetic services into general oncology care. Her work centers on cancer survivors' and families' decision-making about genetic testing and receiving genetic test results, and the subsequent psychological and behavioral impact of those decisions, including the impact on quality of life and related factors. A cross-cutting theme of Dr. Peterson's research is the development and evaluation of novel, e-Health interventions for populations at risk for hereditary cancer and cancer survivors, including internet- and game-based behavior change interventions for adolescents and young adults. Dr. Peterson also leads research to develop and evaluate novel sensor-based and mobile technology applications for behavioral assessment and intervention.

### **MARK B. POCHAPIN, MD**

Mark B. Pochapin, MD, FACP, is the Sholtz-Leeds Professor of Gastroenterology, Director of the Division of Gastroenterology and Hepatology, and Vice Chair of Clinical Affairs in the Department of Medicine at NYU School of Medicine / NYU Langone Health. In his clinical and research efforts, Dr. Pochapin is dedicated to the prevention, early detection, and treatment of gastrointestinal cancers and to quality in endoscopy. As an educator, Dr. Pochapin has received over 30 teaching awards, including the Humanism in Medicine award and twice receiving the Elliot Hochstein Teaching Award, the highest honor given at Weill Cornell Medical College by vote of the graduating class. Dr. Pochapin was recently recognized for his clinical excellence and leadership with the 2019 Master Clinician Award from NYU Langone Health.

Over the past 20 years, Dr. Pochapin has been a leader in the national effort to increase colorectal cancer screening and promote quality in colonoscopy. He has held leadership positions with the National Colorectal Cancer Roundtable (NCCRT) and New York Citywide Coalition for Colon Cancer Control (C5), and for 7 years was on the Board of Directors of the GI Quality Improvement Consortium (GIQuIC). Dr. Pochapin currently hosts a biweekly national radio broadcast called, "Chiefs Rounds" on SiriusXM Doctor Radio, connecting the listening public with leading medical experts and valuable health information. Dr. Pochapin has served in various leadership positions within the American College of Gastroenterology over the past 15 years and is currently serving as president.

Dr. Pochapin graduated from the University of Pennsylvania with a Bachelor of Science and Engineering degree in bioengineering, and received his medical degree from Cornell University Medical College. He completed his residency and chief residency in internal medicine at NewYork-Presbyterian /Weill Cornell Medical Center and a fellowship in gastroenterology at the Albert Einstein College of Medicine / Montefiore Medical Center.

### **REBECCA SIEGEL, MPH**

Ms. Siegel conducts cancer surveillance research across the cancer continuum, from prevention to survivorship, to help inform evidence-based cancer prevention and control in the United States and worldwide. Her primary research interests are emerging trends in cancer occurrence, particularly early-onset colorectal cancer, and cancer disparities based on race, socioeconomic status, and geography.

### **ZSOFIA STADLER, MD**

Dr. Stadler is the Clinical Director of the Clinical Genetics Service with a primary appointment in Clinical Genetics and a secondary appointment in the Gastrointestinal Medical Oncology Service at Memorial Sloan-Kettering Cancer Center. She completed her medical training at Cornell University followed by residency at the Brigham and Women's Hospital at Harvard University. For medical oncology fellowship, she remained at Harvard University where her research focused on clinical cancer genetics and hereditary cancer syndromes. Dr. Stadler joined MSKCC in 2008, where she is now an Associate Attending Physician and is also appointed as an Associate Professor of Medicine at Weill Cornell Medical College.

Her clinical focus is on the diagnosis, treatment, and management of patients and families with an inherited genetic predisposition to colorectal and other gastrointestinal cancers. Her research interests focus on the identification of new cancer susceptibility genes through the use of genomic technologies and the development of novel approaches to cancer screening and prevention in high-risk families. She has been the PI of numerous projects with funding from the National Institute of Health, Damon Runyon Cancer Research Foundation, Cycle for Survival, Starr Cancer Consortium, and the Romeo Milio Lynch Syndrome Foundation. She was recently appointed the Associate Director of the Precision Interception and Prevention Program at MSKCC. She has published and lectured internationally on gastrointestinal cancer genetic syndromes, serves as Co-Chair of the Genetics and Genomics Committee of the American Society of Clinical Oncology (ASCO) and was selected for the New York Magazine: Top Doctors award in 2019.

#### **PHYLICIA L. WOODS, JD, MSW**

Phylcia L. Woods, JD, MSW is Director of Federal Relations at the American Cancer Society Cancer Action Network. In this role, she develops and executes strategies to ensure that federal legislation, regulation, and other initiatives promote access to preventive services and quality, affordable care for people living with cancer, survivors, and those at risk for cancer. Her primary areas of focus are patient and survivor quality of life, health disparities, prescription drugs, diagnostic reform, and clinical trials. Prior to joining ACS CAN, Phylcia served as Counsel to Ranking Member Claire McCaskill on the U.S. Senate Homeland Security and Governmental Affairs Committee and as Health Counsel on the U.S. Senate Special Committee on Aging. Phylcia received her B.A. in Psychology and Master of Social Work from Saint Louis University and her J.D. from the University of South Carolina.

#### **Y. NANCY YOU, MD, MHSC, FACS**

Dr, Nancy You is associate Professor - Department of Surgical Oncology, Associate Medical Director of the Clinical Cancer Genetics Program at University of Texas MD Anderson Cancer Center.. She performs both open and minimally-invasive surgery and directs the Familial High-risk Gastrointestinal Cancer Clinic. She has a special interest in patients with hereditary cancer syndromes and young age-of-onset colorectal cancer.

# SCHEDULE

## 12:00 PM – 12:10 PM OPENING REMARKS

- Richard Fahrer, Pfizer Pharmaceuticals
- Renay Caldwell, Colorectal Cancer Prevention Network, University of South Carolina

## 12:10 PM – 12:15 PM WELCOME/ THANK YOUS/ FRAMING THE CONVERSATION

- Cindy R. Borassi, EAO-CRC Summit™ HOST, Colon Cancer Foundation

## 12:15 PM – 12:20 PM WELCOME / HOUSEKEEPING

- Erin Peterson, EAO-CRC Summit™ CO-HOST, Colon Cancer Coalition

## 12:20 PM – 12:30 PM EMERGING ISSUES, CHALLENGES, AND CHANGING EPIDEMIOLOGY OF EAO-CRC

- Rebecca Siegel, MPH, American Cancer Society

## 12:30 PM – 12:35 PM Q&A

## 12:35 PM – 1:20 PM IMPACT OF COVID-19 ON EAO-CRC

- **12:35-12:45**  
Introduction: J. Leonard Lichtenfeld, MD, MACP, American Cancer Society
- **12:45-12:50**  
Telemedicine In The Era Of COVID-19: Jordan Karlitz, MD, Tulane University
- **12:50-1:00**  
Impact Of COVID-19 On EAO-CRC Diagnostics And Screening: Mark Pochapin, MD, MACP, NYU School of Medicine / David Greenwald, MD, Mt. Sinai Hospital
- **1:00-1:05**  
Impact Of COVID-19 On EAO-CRC Patient Care, Clinical Trials, and Therapeutics: Kimmie Ng, MD, MPH, Harvard Medical School, Dana-Farber Cancer Institute
- **1:05-1:10**  
Impact Of COVID-19 On Genetic Testing: Zsofia Stadler, MD, Memorial Sloan Kettering Cancer Center
- **1:10-1:15**  
Impact Of COVID-19 On EAO-CRC And Surgical Procedures: Y. Nancy You, MD, MHSc, FACS, University of Texas MD Anderson Cancer Center
- **1:15-1:20**  
Impacts Of COVID-19 On The Cancer Care Healthcare Ecosystem; A Policy

Perspective: Phylicia L. Woods, JD, MSW, American Cancer Society Cancer Action Network

### **1:20 PM – 1:30 PM Q&A**

### **1:30 PM – 1:45 PM ATTENDING TO EMOTIONAL WELLBEING DURING COVID-19**

- April Barry, L.S.W., M.S.W., Pennsylvania Department of Health | Bureau of Health Promotion and Risk Reduction, Division of Cancer Prevention and Control
- Krista Nelson, LCSW OSW-C BCD FAOSW, Providence Cancer Institute & Providence St Joseph Health
- Susan Peterson, Ph.D., M.P.H., University of Texas MD Anderson Cancer Center

### **1:45 PM – 1:50 PM Q&A**

### **1:50 PM – 2:20 PM INTRODUCTION OF EAO-CRC WORKING GROUPS**

- **1:50-2:00**  
Introduction: Whitney F. Jones, MD, Colon Cancer Prevention Project, Upstream Health Strategies, LLC
- **2:00-2:05**  
Family History Ascertainment in the U.S. (Addressing Gap 1): Zsofia Stadler, MD, Memorial Sloan Kettering Cancer Center
- **2:05-2:10**  
Earliest Possible Diagnosis and Treatment through Timely Recognition of the Symptoms and Signs of Young Adult CRC (Addressing Gap 2): Jordan Karlitz, MD, Tulane University / Erin Peterson, Colon Cancer Coalition
- **2:10-2:15**  
Timely, Effective, Quality Of Life and Fertility Preserving State of the Art Treatment (Addressing Gap 3): Y. Nancy You, MD, MHSc, FACS, University of Texas MD Anderson Cancer Center / Andrea Cercek, MD, Memorial Sloan Kettering Cancer Center
- **2:15-2:20**  
How Did This Happen? Investigating The Causes Of Early Onset Colorectal Cancers (EAO-CRC) (Addressing Gap 4): Kimmie Ng, MD, MPH, Harvard Medical School, Dana-Farber Cancer Institute, José Perea MD, PhD, Surgery Department. Fundación Jiménez Díaz University Hospital and Research Institute, Madrid, SPAIN
- **2:20 – 2:25**  
Workgroup 5 / Segue Into Q&A - The Changing Healthcare Delivery Landscape Within The Context Of COVID 19. How Do These Changes Impact EAOCRC Patients? What Do We Want As A Community And What Will Be Our Call To Action Points? Making Sure The Voice Of The EAO-CRC Patient And Provider Are Well Represented: Cindy R. Borassi

### **2:25 PM – 2:30 PM WRAP UP, NEXT STEPS AND THANK YOU'S**
